## RICHMOND TO SUBMIT NO LEAGUE SCHEDULE

Bradley Satisfied to Leave His Case With Other Magnates-Meeting Will Probably Give Richmond Week-End Games—Hooker Waiting for His Release.

Richmond will not submit a schedule But it's going to be hustling baseball the league meeting which is to be from old in Murphy's Hotel on March 20. until it closes. hat much has been determined. mond will open at home with Danville on April 26, Norfolk will play Petersburg at Norfolk, and Lynchburg will play Roanoke at Roanoke. Further than this it is impossible at this time to get a line on the way the schedule will be framed up. Business is business, and when business reigns sentiment gets a mighty poor show A Quiet Meeting.

It is not expected that there will any wrangles at the meeting. Most itions and will be ready to agree to eny fair arrangement. All differences lave been settled and the welfare of he whole league is the one thing which will influence the men repre-centing the six teams of the organization. Richmond is not making any claims. Figures tell the whole story. At a glance one may learn what Rich-mond means to the league. In view of this fact it seems reasonable to suppose that Richmond will be given Proper consideration

Salary Limit Will Stand. I have been rather positive as to the

lary limit, For some reason or other have been convinced from the first hat there would be no increase the limit adopted at the league meeting last fall. This conclusion was not reached because of any desire on my part to see baseball cheapened in Vir-sinia. But because I had looked into conditions; had found out just what the teams had been paying for ball players; had learned what the receipts from the games were, and had done a little figuring on the quiet.
It is mighty nice of some people to

figure that Richmond is a big league lown. It speaks well for Richmond. But when hard pan is reached and the count-up happens, then we find out the to the gaines. There is no question about that fact. But Richmond at the same time is not ripe for big league ball. Remember that with a more expensive team will come an increase in the charges of admission. How many people who now go to the games would ie willing to pay the increased tariff? That's a real question. It may be put-ting the situation in a bald way, without trimmings, but it is what counts.

Argument vs. Dopc. Street corner gossip is one thing. Loud-mouthed individuals, who spend most of their time discussing things of which they have no knowledge, may insist that Richmond should be in faster company, but after all is said and done somebody must pay the freight, and the somebody in baseball s the fellow who buys a ticket, not the chap who may have a season pass and walk through the turnstile without

It is needless to continue this Hooker discussion.
